TAX HOLIDAY AND SPLIT TAX RATES

The following jurisdictions have a split rate or have added/extended the tax holiday on fuel tax. The rates referenced below are specific to diesel with the exception of Connecticut. Other fuel types are referenced on the backside of this newsletter, otherwise, check the IFTA Inc. website at www.iftach.org for fuel types not listed.

CONNECTICUT - GASOLINE (GA) AND GASOHOL (GH) ONLY

Travel in Connecticut will be taxed at .2500 cents for both GA and GH. You will report 0 (zero) gallons in the tax paid gallons column as you did not pay fuel tax at the pump. Gallons purchased for GA and GH will be entered in the "Other" line.

NEW YORK

Travel in New York will be taxed at .3955 cents for the entire quarter, but you will reduce the tax paid gallons purchased June 1 – June 30 per the instructions below.

Use the correct percentage in the table below to calculate the gallons of taxed fuel for the June 1 - 30 period. Multiply the gallons purchased in June by the percentage below. Add this figure to the tax paid gallons purchased from April 1 – May 31 and report the sum in the tax paid gallons column. The difference between the actual gallons purchased and the qualified tax paid gallons will be entered as "Other". For more information refer to the following: <https://www.tax.ny.gov/bus/gas/suspension.htm>
